Mentoring Idea: Practice Patience with Snail Mail!

Who doesn't love to get a letter or an unexpected package in the mail? Opening up a surprise envelope, especially one emblazoned with the return address of a caring friend, is the best. Even a postcard can remind your mentee that you're thinking about them. Mail a card, photos, a word search, or a standard letter during your summer, from wherever you happen to be. Your mentee will feel special, and it will help your bond grow during this long break. Email us before June 9th and we can provide your mentee's mailing address. grandareamentoring@gmail.com
